

CAROLINA ZAPATA OLAYA

Executive Director

Mision Antioquia

Since I was a little girl I loved to help others, I used to play with my little siblings and teach them what I learned at the school, like writing, drawing, painting and make crafts as our imagination led us. As I was growing up, I was always willing to help my parents and friends at whatever I could according to my possibilities.

At some point of my life I discovered I wanted to be a social worker and I did it! It is my passion to serve others and I am working in this field from the moment I got graduated. I also could set the time to volunteer without interrupting my work hours and I would like to share some of my experiences:

I founded the volunteer service at Lasallista School, where my children used to study. One of my achievements was to institute the hot lunch for the kids as well as obtaining scholarship for vulnerable children.

As well, I founded the volunteer organization in the Health Center of Bethlehem, where our main duty was helping and comforting the unprotected patients. We, sometimes had to donate our own resources for them to be attended in that institution.

An amazing group of friends and me founded the "Frederic Ozanam Charity Group" which objective was preparing and distributing food packages for low-income families, especially focused on single mothers and the elderly. It's been a joy for me to support economically this organization for more than thirty one years.

So, I you need some help, if you need comfort, please count on me!
